Subject index

Key: c = correspondence; e = editorial; r = review article; S* = Supplement 3; S+ = Supplement 4

A
Acidosis
  Cutaneous side-effects of carbicarb half-strength 531c
  Hemodynamic effects of sodium bicarbonate 306c
  Hyperchloremic and lactic during grand-mal seizures 27
Acute Lung Injury (ALI)
  Amniotic fluid embolism and ALI 45
  Experimental
    lung lavage (rats): inhibition of exogenous surfactant by human plasma 6
  Fat embolism and rhabdomyolysis 363c
  PMN elastase reflects lung inflammation 354
Acute Renal Failure
  rapid fall in blood myoglobin 109
Adrenal insufficiency
  acute, from adrenal hemorrhage 216
  hemodynamic changes 138
Adult Respiratory Distress Syndrome (ARDS)
  complicating capillary leak syndrome 307c
  definitions, mechanisms, outcomes and trial coordination 225
  HA-1A in sepsis and ARDS 328
  inhaled nitric oxide and almitrine 254
  inhaled NO in ARDS: dose-response 319
  lessons from evaluation of new therapy 87e
  prone position: one good turn 247e
Airways
  Percutaneous tracheostomy
    experience with 71 patients 476

laryngeal mask during 448
refinement of 466e
reduction in tidal volume with tracheal gas insufflation in ALI 407
removal of endotracheal tube obstruction 573
resistance revisited 401e
role of endotracheal tube in airway resistance 421
Amniotic fluid embolism
non-cardiogenic pulmonary edema 45
Antimicrobials
Aminoglycoside
monitoring in once vs. thrice daily dosage 243c
once daily netilmicin in children 365
antibiotic treatment of burned patients S30+
Glycopeptides
nephrotoxicity S23+
role in antimicrobial therapy S17+
teicoplanin in gram-positive infections S35+
Piperacillin-tazobactam
abdominal infections S27*
bacteremic infections S43*
pharmacokinetics S14*
respiratory tract infections S21*
urinary tract infection S39*
Arrhythmias
Supraventricular tachyarrhythmias
comparative efficacy of flecainide and verapamil 42
Asthma
hypoxemia by right-to-left atrial shunting 585
pneumoperitoneum and asthma 532c

B

Bacteremia
can bacteremia be predicted in SICU patients? 425
co-morbidities and prognosis of bacteremia 399c
factors influencing mortality in 111 episodes 94
piperacillin-tazobactam in bacteremic infections S43*
predicting bacteremia 405e
sepsis and shock 92e
Barotrauma
Reduction in tidal volume with tracheal gas insufflation in ALI 407
Basic Sciences in Intensive Care
a new series 253e
hypoxic pulmonary vasoconstriction and gas exchange 291r, 379r
Blood Flow
effect of arterial and venous pressure on fluid exchange 657
regional, following simulated transient hypovolemia 414
Blood gases
continuous intra-arterial monitoring 85e
continuous monitoring during hypercapnia 210
Book Reviews 305, 125, 499
Brain death
hemodynamic response to noxious stimuli 165c
Broncho-alveolar lavage (BAL)
PAF and phospholipase A2 in septic shock and trauma 555
PMN elastase reflects lung inflammation 354
Burns
antibiotic treatment in S30+

C

Calcium antagonist
Randomized trial of nitrendipine or nifedipine in hypertensive emergencies 268
Cardiac function
bedside assessement of 513r
cardiac function during high PEEP ventilation 174
depression during PEEP ventilation in pigs 360
echography and radonucleide angiography in septic shock 535e
effect of norepinephrine on RVEF in septic shock 444
left ventricular function during weaning in COPD patients 181
Cardiac output
estimation by arterial and mixed oxygen content in congenital heart disease 500
simulated transient hypovolemia and regional blood flow 414
Cardio-pulmonary resuscitation (CPR)
central venous saturation during CPR 450
gastric perforation secondary to CPR 442
outcome of hyperkalemia during CPR and haemodialysis 287
Catecholamines
dobutamine in ARDS, effects on oxygen transport and consumption 130
metabolic effects of adrenaline in volunteers 113
Catheterization
and echocardiography in septic shock 550
echography and radonucleide angiography in septic shock 535e
endocarditis of pulmonary valve associated with, 142, 222
entrapment of Swan-Ganz catheter 309c
estimation of cardiac output by arterial and mixed O2 content in congenital heart disease 500
monitoring RVEF with a slow-response thermistor 348
piroximone and RVEF in heart failure 341
Central Nervous Sytem
urapidil permeates the blood-brain barrier 278
Wernicke's encephalopathy 282
Chronic Obstructive Pulmonary Disease (COPD)
comparison of ipratropium alone or combined with fenoterol 199
left ventricular function during weaning from MV 181
Coagulation
use of antithrombin III in critically ill 577
Coma
after cetrimide treatment of epidural hydatid cyst 613c
prognosis of stroke 32
Complement
C1-inhibitor in vascular leak syndrome 242c
Consensus Conference
predicting outcome in ICU patients (*ESICM/SRLF*) 390
Continuous Positive Airway Pressure (CPAP)
pneumocephalus following mask CPAP 83c
Cytokines
endotoxin, cytokines and sepsis in trauma 461c
inflammatory mediators in strenuous exercise and sepsis 602r
prognostic value in septic shock 272
severe malaria in seasonal endemic area 437

D

Decision-making
innovative and costly therapies 314e
measurement of quality of life for 251e

E

Ecosanoids
PAF and phospholipase A2 in septic shock and trauma 555
Endocarditis
pulmonary valve, secondary to Swan-Ganz catheter 142, 222
Endothelium
effects of hydroxyethyl starch on endothelial cell activation 37
Endotoxin
cytokines, endotoxin, and sepsis in trauma 461c
HA-1A in sepsis and ARDS 328
innovative and costly therapies 314e
Energy expenditure
a new pediatric metabolic monitor 51
Expert Panel
ARDS: definitions, mechanisms, outcomes and trial coordination (*ESICM/ATS*) 225
management of deep *Candida* infection in surgical and ICU patients (*BSAC*) 522
mechanical ventilation, parts 1&2 (*ESICM/ACCP/SCCM*) 64, 150
the problem of sepsis (*ESICM*) 300

F
Fat embolism
in rhabdomyolysis 363c

G
Ganciclovir
pharmacokinetics during CVVHD 47
Guidelines
an emerging synthetic science 540e
conference on mechanical ventilation (*ACCP/ESICM/SCCM*) 64, 150
practice guidelines: methodologic and practical issues 593r
training in Intensive Care (*ESICM*) 80
utilisation of ICUs (*ESICM*) 163
Gut hypoperfusion
decreased response to pentagastrin with low intra-mucosal pH 105
gastric intra-mucosal pH 90e
increased post-operative complications and ICU cost 99
splanchnic perfusion in shock 430e

H
Haemodialysis
Continuous, veno-venous (CVVHD)
pharmacokinetics of ganciclovir 47
Outcome of hyperkalemia during CPR 287
Haemofiltration
continuous veno-venous, heparin clearance 212
CVVH and mortality after cardiac surgery 457c
drug dosage in, 166c
influence on gas exchange of induced hypothermia 431
Head injury
IgG subclasses following head injury in children 508
role of non-neurologic disturbances in outcome 562
therapy of post-traumatic brain edema 260
vasoconstriction therapy: right or wrong? 249e
Heart Failure
effect of piroximone on RVEF 341
Heat and Moisture Exchangers
microbial retention performance of 3 filters 233
Hemolysis
and MOF after mitral valve repair 358
Hypertension
trial of nitrendipine or nifedipine in hypertensive emergencies 268
urapidil permeates the blood-brain barrier 278
Hypothermia
haemofiltration-induced, influence on gas exchange 431
Hypovolemia
ARDS complicating capillary leak syndrome 307c
resuscitation via intra-osseous route in neonate 529c
simulated transient, and regional blood flow 414

I
Iatrogenic Disease
pulmonary valve endocarditis and right heart catheterization 142, 222
ICU management
comparison of ICU cost between 1988 and 1991 542
estimating the cost of intensive care 538e
Quality of life as tool for decision-making 251e
Indirect calorimetry
new pediatric metabolic monitor 51
O2 supply-dependency: measured vs.calculated methods 12
O2 uptake and delivery: statistical reappraisal 19
reverse Fick principle vs. calorimetry 457c, 458c
Infections
β-lactamases: current situation S5*
can bacteremia be predicted in SICU patients? 425
co-morbidities and prognosis of bacteremia 399c
epidemiology of infection in ICU S2+
evolution of β-lactamases inhibitors S10*
gas gangrene and purulent pericarditis caused by *Clostridium* septicemia 309c
Malassezia furfur infection of central venous catheters 496
polymicrobial, therapy with piperacillin-tazobactam S35*
pulmonary valve endocarditis and right heart catheterization 142, 222
risk factors for *P. aeruginosa* ventilator-associated pneumonia 193
septic shock and ARDS due to *Listeria monocytogenes* 83c
Intoxications
Buflomedil 219
carbamate insecticide and pancreatitis 49
cardiotoxicity of colchicine in the rat 119
fatal chromium sulfate poisoning 145
Intra-abdominal Pressure
measurement via naso-gastric tube 588

L
Lactate
lactic and hyperchloremic acidosis in grand-mal seizures 27
Liver failure
fulminant, in children with status epilepticus 375
safety limit of inferior vena caval pressure for liver viability (dogs) 124

M
Malaria
in seasonal endemic area 437
Mechanical Ventilation (MV)
conference on ARDS: definitions, mechanisms, outcome 225
consensus conference 64, 150
high fat, low carbohydrate enteral feeding and weaning 470
influence on gas exchange of haemofiltration-induced hypothermia 431
ipratropium alone or combined with fenoterol in ventilated COPD patients 199
lessons from evaluation of new therapy in ARDS 87e
prognosis of stroke patients undergoing MV 32
prone position in ARDS: one good turn 247e
reduction in tidal volume with tracheal gas insufflation in ALI 407
removal of endotracheal tube obstruction 573
role of endotracheal tube in airway resistance 421
virtual absence of stress ulcers during prolonged MV 335
Methaemoglobinaemia
in volunteers inhaling low-dose NO 581
Monitoring
accuracy of 3 O2 saturation optic catheters 480, 484
blood gases, continuous intra-arterial 85e, 210
central venous saturation during CPR 450
invasive monitoring and echography in septic shock 550
splanchnic oxygenation using tonometry 452r
Multiple Organ Failure (MOF)
gut hypoperfusion and increased post-operative complications and cost 99
gut hypoperfusion and post-operative organ dysfunction 203r
neuromuscular abnormalities in, 612c
severe malaria in seasonal endemic area 437

N
Neonatal Intensive Care: see *Pediatric Intensive Care*
Neuromuscular diseases
muscle weakness from vitamin D deficiency 591
organ failure and sepsis 612c
prolonged paralysis after neuromuscular blocking agents 461c
terminal mitochondrial cytopathy 614c
Nitric Oxide (inhaled NO)
associated with iv. almitrine in ARDS 254
dose-response in ARDS 319
in severe respiratory syncytial virus infection 511
lack of efficacy in ARDS 532c

methaemoglobinemia in volunteers inhaling low-dose NO 581
Nosocomial Infections
Bacteremia
factors influencing mortality in 111 episodes 94
Catheter-related
endocarditis of pulmonary valve associated with 142, 222
Malassezia furfur infection of central venous catheters 496
Diagnosis of infection in ICUs S12+
Epidemiology in ICU S1*
Epidemiology of infections in ICU S2+
Infection control strategies in ICU S7+
Pneumonia
piperacillin-tazobactam in respiratory tract infections S21*
prevention by intra-tracheal colistin 187
prevention: one step backward 173e
risk factors for *P. aeruginosa* pneumonia 193
Nutrition
dietary manipulation and weaning 463e
high fat, low carbohydrate enteral feeding and weaning 470
metabolic support in the critically ill (Meeting Report) 298
stress ulcer prophylaxis 311e

O

Outcome of ICU Care
mortality in 111 episodes of nososcomial bacteremia 94
predicting outcome in ICU patients (*Consensus Conference ESICM/SRLF*) 390
prognosis of stroke in mechanically ventilated patients 32
prognostic value of cytokines in septic shock 272
role of non-neurologic disturbances in outcome of head injury 562
Oxygen consumption
dobutamine in ARDS, effects on oxygen transport and consumption 130
influence on gas exchange of Haemofiltration-induced hypothermia 431
new paediatric metabolic monitor 51
pathologic supply-dependency: measured vs. calculated 12
prognostic value of cytokines in septic shock 272
reverse Fick principle vs. indirect calorimetry 457c, 458c
simulated transient hypovolemia and regional blood flow 414
statistical reappraisal of consumption/delivery 19
supply-demand relations: measures of dysoxia 1e
Oxygen saturation
accuracy of three O2 saturation optic catheters 480, 484

P

Pancreatitis
after carbamate insecticide intoxication 49
Pediatric Intensive Care
Acute Respiratory Distress Syndrome
caused by respiratory syncytial virus in infants 61
inhaled NO in severe respiratory syncytial virus infection 511
Bicarbonate
haemodynamic effects in neonates 306c
Coma and Encephalopathies
fulminant liver failure in status epilepticus 375
IgG subclasses following head injury 508
neurological intensive care in children 243e
resuscitation after severe hypoxia 420
sudden death in Arnold-Chiari malformation 73
Extra-corporeal lung assist
prolonged support after cardiac surgery 368
Infections
Malassezia furfur infection of central venous catheters 496
Mechanical ventilation
exogenous surfactant in post-operative pulmonary haemorrhage 58
new metabolic monitor 51
Pharmacokinetics
once daily netilmicin 365c
Sedation and paralysis
prolonged, outpatient therapy of dependency 504
Shock
resuscitation via intra-osseous route in neonate 529c
serum cytokines in septic shock and purpura 371
Pharmacokinetics
aminoglycoside monitoring in once vs. thrice daily dosage 243c
ganciclovir during CVVHD 47
heparin clearance during CVVH 212
once daily netilmicin in neonatal and pediatric ICU 365
piperacillin-tazobactam S14*
Plasma proteins
inhibition of exogenous surfactant in experimental (rats) ALI 6
substitutes: effect of hydroxyethyl starch on endothelial cell 37
Pneumothorax
tension pneumothorax 468e
Positive End-Expiratory Pressure (PEEP)
depression of cardiac output during PEEP in pigs 360
echocardiographic analysis of cardiac function during high PEEP 174
ipratropium alone or combined with fenoterol in ventilated COPD patients 199
PEEP and alveolar recruitment in ARDS 82c
ventricular function during PEEP 169e
Potassium
Outcome of hyperkalemia during CPR and hemodialysis 287
Pressure Support Ventilation (PSV)
left ventricular function during weaning 181
Pulmonary Hypertension
hypoxic pulmonary vasoconstriction and gas exchange 291r, 379r
pulmonary air embolism 166c

R

Randomised Controlled Trials
antithrombin III in sepsis: open, randomized trial 577
flecainide vs. verapamil in supraventricular arrhythmias 42
ipratropium alone or combined with fenoterol in ventilated COPD patients 199
nitrendipine vs. Nifedipine in hypertensive emergencies 268
Rapid Publication
inhaled NO and iv. almitrine in ARDS 254
inhaled NO in ARDS: dose-response 319
Rhabdomyolysis
rapid fall in blood myoglobin 109
Right Ventricle
effect of norepinephrine on RVEF in septic shock 444
effect of piroximone on RVEF in heart failure 341
monitoring RVEF with a slow-response thermistor 348

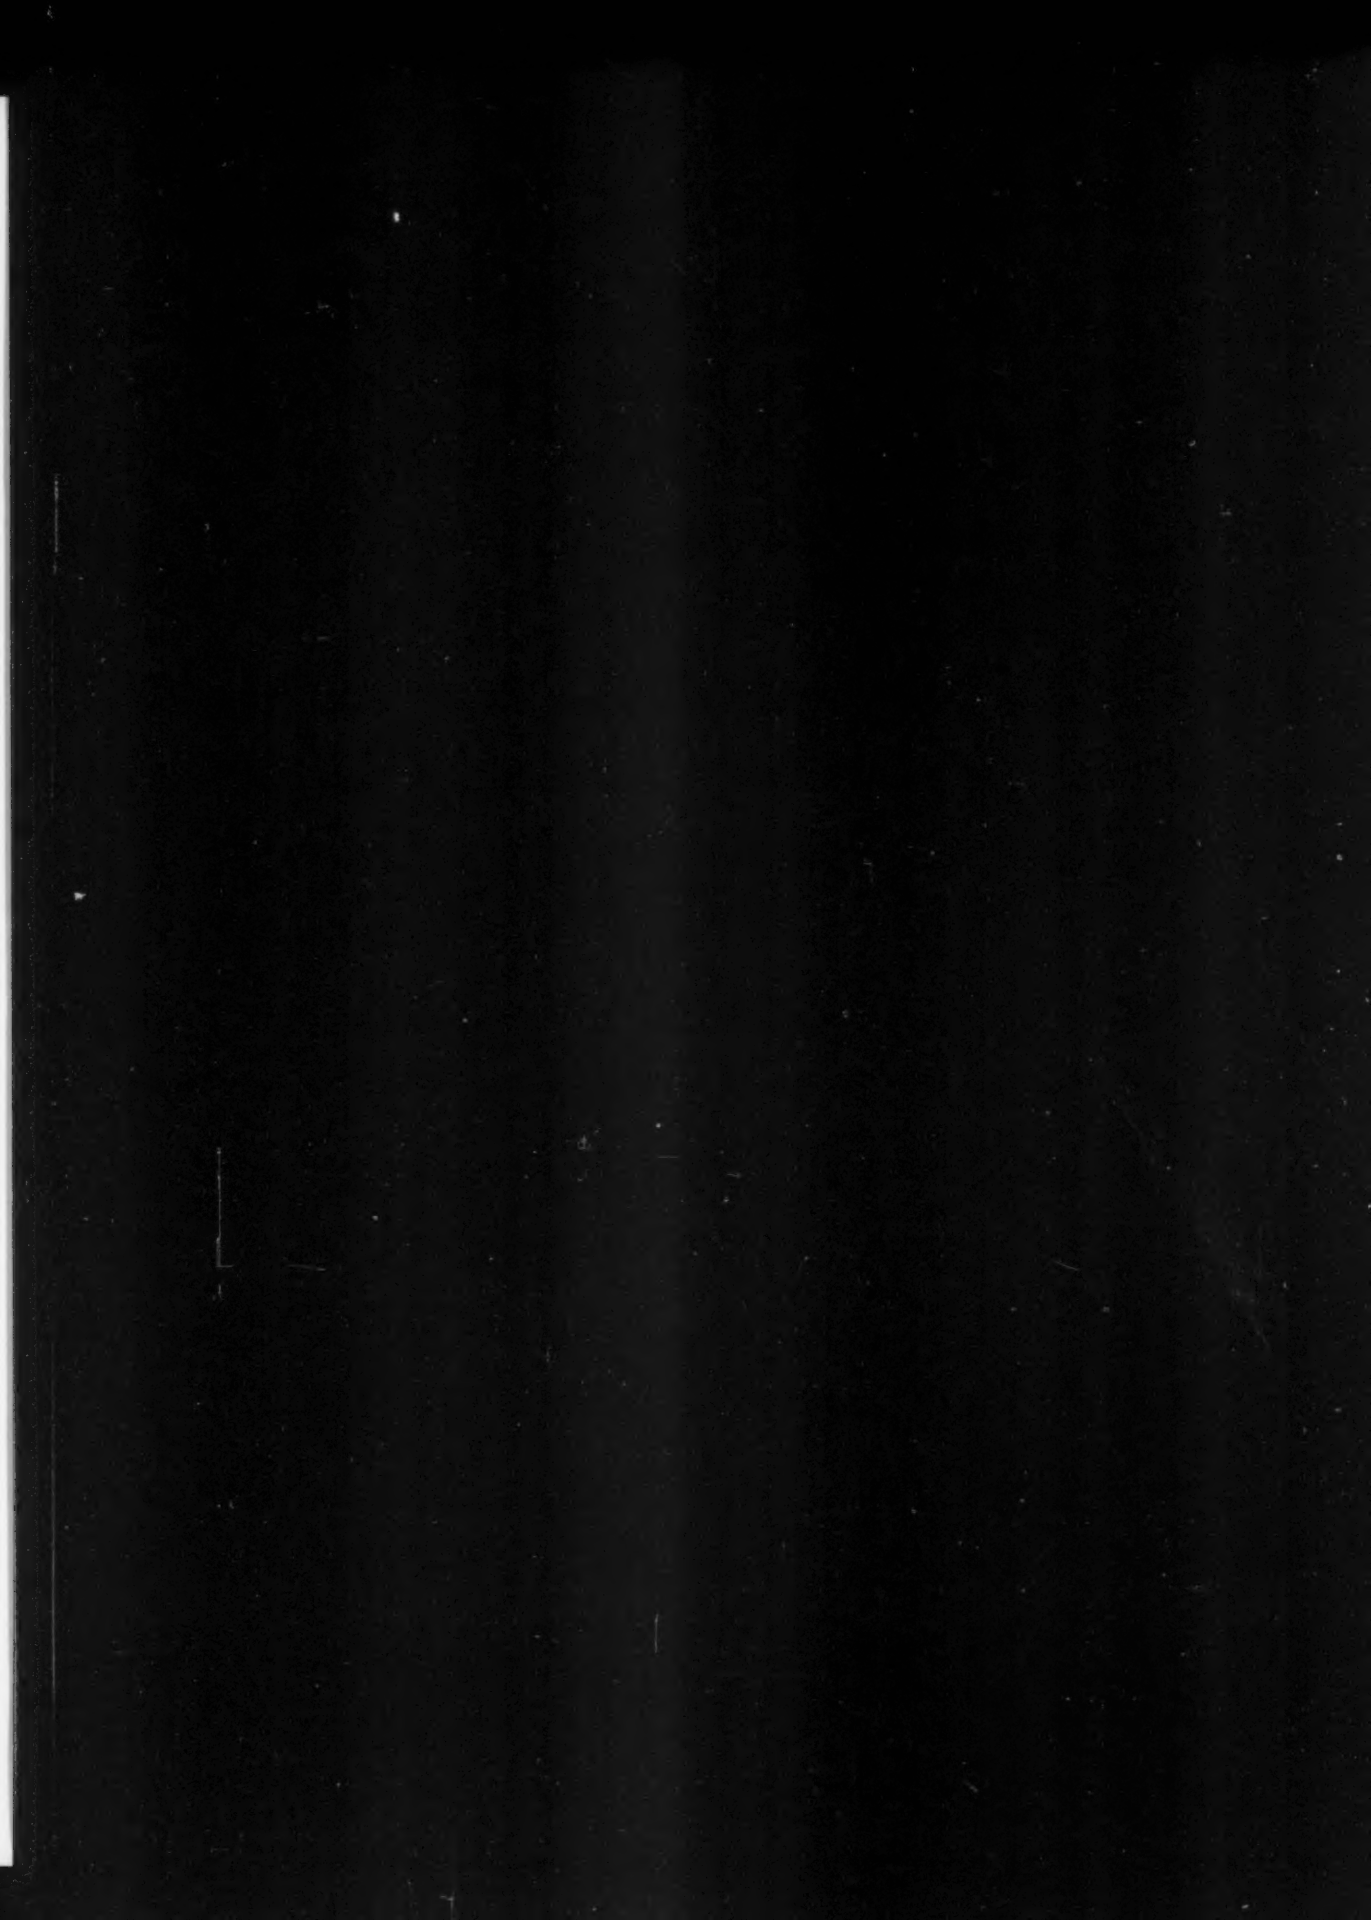
S

Sedation
isoflurane and atmospheric pollution 460c
prolonged, outpatient therapy of dependency in children 504
propofol in refractory status epilepticus 148
Seizures
fulminant liver failure in status epilepticus, children 375
hyperchloremic acidosis and lactic acidosis in grand-mal 27
in Buflomedil intoxication 219
management of status epilepticus 611c
propofol in refractory status epilepticus 611c
terminal mitochondrial cytopathy 614c
Selective Decontamination (SDD)
impact of SDD on ICU ecology 459c
virtual absence of stress ulcers during prolonged MV 335
Sepsis
administration of antithrombin III in sepsis 577
and inflammation 307c
characterization of sepsis (*Expert Panel*) 300
endotoxin, cytokines and sepsis in trauma 461c
HA-1A in sepsis and ARDS 328
inflammatory mediators in strenuous exercise and sepsis 602r

innovative and costly therapies 314e
mediators of sepsis 238
predicting bacteremia 405e
Shock
adrenal insufficiency, hemodynamic changes 138
Septic
adrenocortical responsiveness in septic shock 489
and ARDS due to *Listeria monocytogenes* 83c
and bacteremia 94e
echocardiography in septic shock 550
echography and radionucleide angiography in septic shock 535e
effect of norepinephrine on RVEF in septic shock 444
PAF and phospholipase A2 in septic shock and trauma 555
prognostic value of cytokines in septic shock 272
serum cytokines in children septic shock and purpura 371
splanchnic perfusion in shock 403e
Splanchnic Perfusion/Ischemia
decreased response to pentagastrin with low intra-mucosal pH 105
gastric intra-mucosal pH 90e
gut hypoperfusion and increased post-operative complications and ICU cost 99
gut mucosal hypoperfusion and post-operative organ dysfunction 203r
splanchnic perfusion in shock 403e
tonometry for assessment of 452r
Stress-ulceration
prophylaxis-*quo vadis?* 311e
virtual absence of, during prolonged MV 335
Stroke
prognosis in mechanically ventilated patients 32
Surfactant (exogenous)
in infant with post-operative pulmonary hemorrhage 58
making progress in ARDS 4e

T
Technique
accuracy of 3 O2 saturation optic catheters 480, 484
blood gases, continuous intra-arterial 85e, 210
measurement of intra-abdominal pressure via naso-gastric tube 588
microbial retention performance of 3 filters 233
new pediatric metabolic monitor 51
Tetanus
after revascularization surgery 308c
Thrombolysis
flumazemil and baclofen 533c
splenic rupture following streptokinase 244c
Trauma
endotoxin, cytokines and sepsis 461c
PAF and phospholipase A2 in septic shock and trauma 555

U
Units
SI vs. conventional units 84c

V
Vitamines
muscle weakness from vitamin D deficiency 591
Wernicke's encephalopathy 282


W
Weaning from MV
cardiovascular effects of weaning 171e
dietary manipulation and weaning 463e
high fat, low carbohydrate enteral feeding and weaning 470
indexes for weaning 529c
left ventricular function during weaning 181
team approach to weaning 317e
